# 1984 ¿Un futuro Orweliano?

On January 24th,  
Apple Computer will introduce  
Macintosh.  
And you'll see why 1984  
won't be like "1984"

## (TS//SI//NF) Introduction

*U.S. as World's Telecommunications Backbone*

- Much of the world's communications flow through the U.S.
- A target's phone call, e-mail or chat will take the **cheapest** path, **not the physically most direct** path – you can't always predict the path.
- Your target's communications could easily be flowing into and through the U.S.
